Assumptions:

- Conversion of foreign academic hours is calculated on the assumption that the average number of credits for one year of full-time academic study in the United States varies from 18 to 24 semester hours for graduate programs, 30 to 36 semester hours for undergraduate programs, and 5 to 12 units for secondary programs.
- Grade Point Average is calculated on a 4.00 scale by dividing the total number of grade points by the total number of units, not considering grades of S on the Satisfactory/Unsatisfactory scale.
